FUSION

FUSION

We are extremely excited to announce the launch of our Mini Gems Range, exclusively for children and young people, from Keystages 1 to 3

Fusion 10 have been designing breakout and soft seating for the corporate and commercial market for many years, combining over 200 years of design and upholstery crafted seating.

This furniture is designed especially to complement and enhance educational needs and styles in classrooms, libraries, reading spaces, nurseries and even the home.

Adding interest to any floor space encourages creative play. Colourful, exciting and child friendly, our aim is to help supply the environment which excites and inspires children in their learning and play.

We strive to provide high quality, value for money children's furniture, using the highest quality materials throughout the manufacturing process, checking the products at every level to ensure durability, safety, stability and comfort.

In the following pages you will discover our standard portfolio products. However, for those that require an entirely specific style of seating please visit and consider our bespoke service offerings.

Bespoke

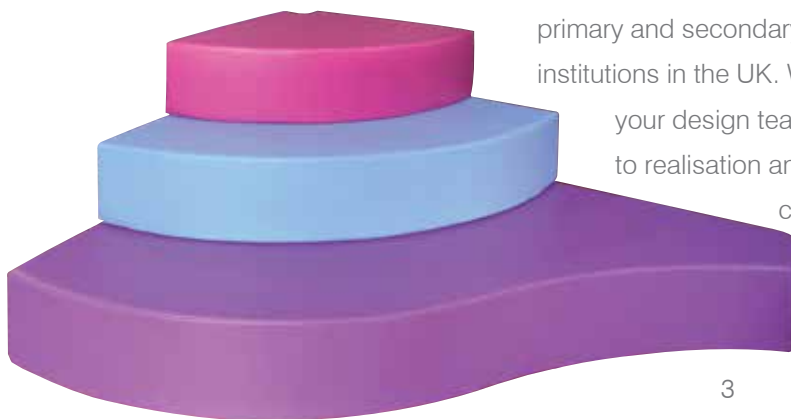

Our mantra revolves around ensuring that children and young people have access to inspiring relaxation and learning areas.

Unlike many seating manufacturers in the UK we have established a bespoke service, which particularly tailors a seating solution to the customers space planning and design needs.

We have decided now to adapt this service to children's learning and play spaces.

We offer specially designed furniture and furnishings for children, libraries, reading spaces, nurseries, health centres,

primary and secondary schools or other educational institutions in the UK. We work with line or CAD drawings and your design team to provide the ideal solution, from concept to realisation and help eliminate the confusion and stress of choosing the right product, style, size, colour and cost.

Smile

This modular system is tough enough to take the rough and tumble yet light enough for kids to move around.

Available with a choice of three different seat heights.
